

# Online Behaviour & Evolution Seminars

Winter Semester 2020/2021  
On Wednesdays on ZOOM

Date	Time	Speaker	Title
28.10.2020	12.15	Martin Stoffel, The University of Edinburgh, UK (host: Korsten)	Inbreeding and survival in an island population of wild sheep – A genomic perspective
04.11.2020	12.15	Carina Nebel, FitzPatrick Institute of African Ornithology, University of Cape Town, South Africa (host: Chakarov)	Colour polymorphism maintenance in the Black Sparrowhawk
11.11.2020	12.15	Pablo Salmón, University of Glasgow, UK (host: Chakarov)	Are there repeated genomic signatures of urban adaptation? A case study in a common songbird
18.11.2020	<b>11.15</b>	Laura Hurley, Macquarie University, Australia (host: Schmoll)	Sperm in Eggs: Social, environmental, and phylogenetic impacts on avian polyspermy
25.11.2020	12.15	Ludek Berec, University of South Bohemia & Academy of Sciences of the Czech Republic (host: Wittmann)	tba
02.12.2020	12.15	Marta Szulkin, University of Warsaw, Poland (host: Caspers)	Urban evolutionary ecology
09.12.2020	12.15	Krüger	
16.12.2020	<b>11.15</b>	Emma Carroll, University of Auckland, New Zealand (host: Hoffman)	Harbour seal genelemetry; combining genetics, telemetry and population trajectories to assess source-sink dynamics in UK harbour seals
23.12.2020	12.15	Luke Eberhart-Phillips, Max Planck Institute for Ornithology (host: Korsten)	Plover breeding systems: diversity, evolution, and implications for conservation
06.01.2021	12.15	Ramm	
13.01.2021	12.15	Krüger	
20.01.2021	12.15	Jonna Kulmuni, University of Helsinki, Finland (host: Gossmann)	Understanding outcomes of hybridization over time and space
27.01.2021	12.15	Caspers	
03.02.2021	12.15	Dustin Penn, Konrad Lorenz Institute of Ethology, University of Veterinary Medicine Vienna (host: Reinhold)	tba
10.02.2021	12.15	Hoffman	

All interested are welcome!
