

Application for financial support in the framework of
Bielefeld Young Researchers' Fund, funding line Postdocs:
Entry into Third-party Funded Research

Please read the [information sheet](#) to fill in the form.

In case of questions, feel free to contact nachwuchsfonds@uni-bielefeld.de

A German version of this form is available at uni-bielefeld.de/nachwuchsfonds

Applicant's Profile

Name: Surname:

Total sum applied for: Intended start date of funding:

Start date/date of admission of doctoral phase:

Date of dissertation:

Grade of dissertation:

[If you obtained your doctorate abroad, please indicate the grading system used, e.g. by stating the highest and lowest possible grade. If no grades were awarded, please state so.]

Supervisor and faculty during dissertation:

Current research group and faculty:

Personal qualification

[Information given in this section can further strengthen your application. It is not required to fulfil any of these criteria in order to be eligible for funding.]

Prizes, awards and third-party funding acquired:

[Please state the source and sum of the funding etc. In case of third-party funding, explain your role/extent of participation in the application. For prizes and awards, please let us know the type of work that won the prize (e.g. best poster) if this is not obvious from the prize's name.]

Research stays abroad and in other research groups/labs/etc. since the beginning of your doctorate:

Special commitments, participation in University bodies & additional qualifications:

[Information on special roles you have in the running of the University's research or administration (e.g. lab management, organising of conferences, editorship for a journal, membership in a University commission, representative of your status group, mentoring etc.) and on qualifications towards a career in science (e.g. courses on leadership, science management, teaching, scientific writing etc.).]

Teaching experience:

Science communication/engagement with general public:

[e.g. newspaper articles or other media reports on your research, articles etc. by yourself about research-related topics, participation in outreach activities or other communication of science-related topic to the general public.]

Title & description of current research project

[max. 1 page/400 words: Give a short description of your current research project and aims. Please note: a) the text must be understandable to University members who are not members of your faculty; b) the quality of your research project will be considered when evaluating your application. State your research questions/hypotheses and contextualise them in the current state of research. Further, briefly explain your methods and your role in the overall project. You may cite publications in the text using a simple format of "(author, year)". A full reference list at the end of the text is not required.]

Description of the measure you apply for:

[max. 1 page/400 words: Please structure your description as follows:

- Description of your planned trip/equipment needed/other use for funds you apply for
- Relevance of the measure you apply for to a) the third-party funded project you intend to apply for, b) the chances of success of your third-party application and c) your future scientific career
- Time schedule

Please remember that this section also needs to be comprehensible to people from outside your discipline.]

Description of the third-party funded application you intend to submit:

[max. 1 page/400 words: Please structure your description as follows:

- Give a short description of your intended research project and how it relates to your current research. Again, the text must be understandable to reviewers outside your field. Please include your research question/hypotheses and a brief overview of your methods and an explanation how your project relates to the current state of knowledge. You may cite publications in the text using a simple format of "(author, year)". A full reference list at the end of the text is not required.
- Role of your third-party funding application for your career plans
- Funding bodies and their funding lines/programmes you intend to apply for
- Named applicants on the intended application
- Deadline of the funding line/programme]

Budget plan

[Please refer to the instruction sheet to check which types of expenses are eligible. The maximum funding amount in this programme is 15,000 €.]

Cost category [Description of planned expenses]	Details of individual costs [€]
Material costs: <div style="border: 1px solid black; height: 100px;"></div>	
Travel expenses: <div style="border: 1px solid black; height: 100px;"></div>	
Assistant costs: - number of assistants: <input data-bbox="422 898 778 936" type="text"/> - duration of employment in months: <input data-bbox="545 943 778 981" type="text"/> - number of hours per week per assistant: <input data-bbox="601 987 778 1025" type="text"/>	
Carer or childcare expenses: <div style="border: 1px solid black; height: 80px;"></div>	
Expenses for additional qualifications: <div style="border: 1px solid black; height: 80px;"></div>	
Total amount of funding requested:	

Statement of the faculty/institute/department

- The applicant is supported by the faculty/institute as follows:

[Please provide some detailed information on support provided by the faculty/institute, for example additional funding, provision of a workplace, equipment, institutional integration, ...]

It is confirmed herewith that the applicant will independently carry out the project funded by Bielefeld Young Researchers' Fund. This means that they

- will independently publish the results provided in the framework of this research project,
- will independently dispose of the funds provided in the framework of the Bielefeld Young Researchers' Fund,
- are first time applicants for third-party funds resulting from support provided by the Bielefeld Young Researchers' Fund.

Head of research group:
